

Year 2 Home Learning Challenges

Choose your challenge!

Our current topic is 'What would live in a place like this?' We are focusing our work on different habitats. Here are some activities you can do at home. Please bring in your work once you have completed it.

Choose a type of habitat to research and present what you find out in a colourful poster.

Go on a nature walk and try and find plants, trees, insects and animals. Draw or write down what you find.

Make a habitat in a box. You can use drawings, 3D objects, photos or natural materials.

[*BBC – habitats – video clips*](#)

Please bring your work into school or send photos to year2@berridge.nottingham.sch.uk.
