

How to help support your child's learning at home?

Homework Guide

Year 2

Maths

Children in Year 2 are expected to know their times tables including their 2,5 & 10. They can practise at home and use Times Tables Rockstars to help them at home. Please check with your class teacher for login details. [Times Tables Rock Stars – Times Tables Rock Stars \(ttrockstars.com\)](https://ttrockstars.com)

The school follows a maths programme called White Rose.

On the school website there are details of the teaching programme including some booklets to complete at home . These can be found here:www.berridgeprimary.com/maths

Reading

Children are expected to read 3 times a week. Please read at home and write in the reading diary.

There is information on the website about our phonics and spelling programme called Little Wandle which can be found here

www.berridgeprimary.com/phonics-1/

For information about reading at home can we found here

www.berridgeprimary.com/reading-at-home-1/

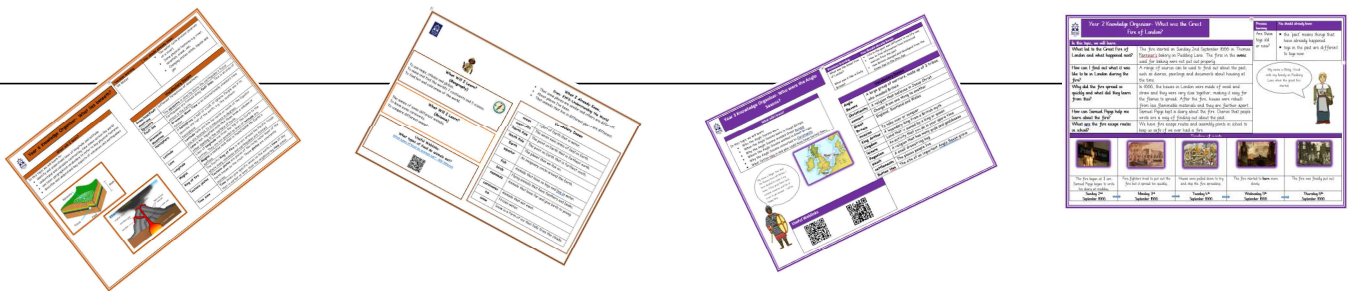

Home Learning Challenges

Every topic we send home a **home learning challenge**. This is normally linked to the topic we are studying and helps extend the children's knowledge of the topic in a fun and practical way. Children are rewarded for completed home challenges.

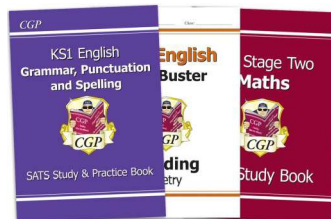

Knowledge Organisers

In Year 1 – 6 children are given a knowledge organiser with the key information they are studying in the topic. They include key vocabulary to learn, key learning points and additional research information using QR codes. Please take the time to talk to your child about their learning and recall of the information on the knowledge organiser

Additional resources to support learning at home

School sells study guides in Y2 and Y6 which are available at parents evening and the school office. You can also buy these online at [Primary Books](#) | [CGP Books](#)

There is further information about how to help your child at home on our school website www.berridgeprimary.com/homework-websites/

Online Safety

We encourage children to use the internet for their learning in school but have monitoring and filtering software to ensure children are safe online. Please make sure you take steps to ensure children are safe online at home. Further details and tips can be found on our school website at www.berridgeprimary.com/online-safety/
