

How to help support your child's learning at home?

Homework Guide

Reception

Maths

We encourage parents to count with their child using objects at home whenever they have the opportunity. Counting to 10 and finding different numbers to add together is an important skill to learn in Reception.

Reading

Children are expected to read 3 times a week. Please read at home and write in their reading diary.

There is information on the website about our phonics programme called Little Wandle which can be found here:

www.berridgeprimary.com/phonics-1/

We send home story books to read with your child, the books are meant to be read by the adult to the child.

At various times though out the school year we will send out sounds and tricky words for the children to learn at home. We do this so that the children can keep up with their learning.

For information about reading at home can we found here

www.berridgeprimary.com/reading-at-home-1/

Home Learning

As part of our "who is in our family?" Theme we encourage the children to look at old photos of their family. If you travel abroad this is a great opportunity to discuss with your child what it is like in another country compared to the UK.
