What are human & physical features?

What is it like in the UK?

What is fieldwork?

Key Learning

What are human features in Geography?

Human features are things that people have made. These can be buildings, roads and bridges.

What are physical features in Geography?

Physical features are created by nature. These can be rivers, forests and rocks.

What is a field study?

Field studies when we go outside the classroom to learn. We can see things for ourselves, touch and look closely, find out more information.
