| invention  | An invention is something new that a person makes or thinks of to solve a problem or help people.                                          |                                                                                                     |    |     |     |      |   |   |   |   |   |    |    |     |     |      |
| medicine   | Medicine is something we take or use to help our bodies feel better or stay healthy.                                                       |                                                                                                     |    |     |     |      |   |   |   |   |   |    |    |     |     |      |
| millennium | 1000 years                                                                                                                                 |                                                                                                     |    |     |     |      |   |   |   |   |   |    |    |     |     |      |
| numerals   | Figures or symbols for a number.                                                                                                           | <table><tr><td>I</td><td>V</td><td>X</td><td>L</td><td>C</td><td>D</td><td>M</td></tr><tr><td>1</td><td>5</td><td>10</td><td>50</td><td>100</td><td>500</td><td>1000</td></tr></table> | I  | V   | X   | L    | C | D | M | 1 | 5 | 10 | 50 | 100 | 500 | 1000 |
| I          | V                                                                                                                                          | X                                                                                                                                                                                      | L  | C   | D   | M    |   |   |   |   |   |    |    |     |     |      |
| 1          | 5                                                                                                                                          | 10                                                                                                                                                                                     | 50 | 100 | 500 | 1000 |   |   |   |   |   |    |    |     |     |      |
| scholar    | A person who has studied a subject thoroughly.                                                                                             |                                                                                                    |    |     |     |      |   |   |   |   |   |    |    |     |     |      |
| siege      | A siege is when an army surrounds a city or fort, stopping food, water, or help from getting in so that the people inside have to give up. |                                                                                                   |    |     |     |      |   |   |   |   |   |    |    |     |     |      |
| Silk Road  | A network of trade routes linking China to the Middle east and Europe                                                                      |                                                                                                   |    |     |     |      |   |   |   |   |   |    |    |     |     |      |

## Key Vocabulary

### What was the House of Wisdom and why would you visit it?

The House of Wisdom was a famous library, a big school, and a place for smart people in the city of Baghdad, a long time ago (during the Islamic Golden Age). It was a special place where people learned new things about science, numbers, the stars, and stories.

### Examples of Islamic art

- Islamic art includes architecture, calligraphy, painted glass, illustrated patterns, and pottery.
